About AeroFCRIT

Founded in 2019, AeroFCRIT is a dynamic university UAV research team dedicated to pushing the boundaries of unmanned aerial technology. Our mission is to foster innovation, hands-on engineering experience, and a competitive spirit among students by bridging classroom theory with real-world aerospace applications.

Team Garuda

Focused on fixed-wing UAV development, aerodynamics, and long-endurance flight.

Team Thestral

Specializes in autonomous multirotor systems, navigation, and payload integration.

Impact and Achievements

AeroFCRIT has consistently demonstrated exceptional technical prowess in national-level UAV competitions since 2019.

2x

National AIR-1 Titles

Recognized for excellence at the SAE Autonomous Drone Development Challenge.

6+

Years of Competing

Continuous participation and success in national-level UAV events.

25+

Active Members

A growing community contributing to cutting-edge UAV research.

Agnel Charities,

Fr. C. Rodrigues Institute of Technology, Vashi

TEAM GARUDA

FIXED-WING UAV DEVELOPMENT

Competition Achievements Timeline:

Drone Development Challenge by SAEIndia

- 1 — DDC 2025**
 - AIR 3 in Best CFD Analysis
 - AIR 5 in Best Overall Performance
 - AIR 8 in Best Innovation
 - AIR 4 in Best Technical Presentation9+-
- 2 — DDC 2024**
 - AIR 2 in Best CFD Analysis
 - AIR 9 in Best Overall Performance
- 3 — IIT Bombay 2024**
 - Participated in IIT Bombay **TECHFEST**
- 4 — DDC 2023**
 - AIR 6 in Overall Performance
 - AIR 3 in Technical Report Presentation
- 5 — DDC 2022**
 - AIR 10 in Overall Performance

Aircraft Design

Innovative airframe geometries optimized for stability, lift, and mission-specific requirements.

Competition Achievements

Regularly securing top ranks in categories such as flight efficiency and payload delivery.

CFD Analysis

Utilizing Computational Fluid Dynamics to refine aerodynamic profiles and predict flight characteristics.

Avionics & Control Systems

Integration of advanced autopilot systems like PX4 and custom flight control algorithms for autonomous operations.

TEAM THESTRAL

AUTONOMOUS MULTIROTOR UAV DEVELOPMENT

Competition Achievements Timeline:

Autonomous Drone Development Challenge by SAEIndia

- 1 — ADDC 2026**
AIR 1 in Safe Design System (Prize Money = 5,000/- INR)
- 2 — ADDC 2025**
AIR 1 in Overall Performance (Prize Money = 50,000/- INR)
AIR 3 in Safe Design System
- 3 — IIT Roorkee 2024**
3rd Prize in the Sky Maneuver event at Cognizance 2024
- 4 — ADDC 2024**
AIR 7 in Overall Performance
- 5 — ADDC 2023**
AIR 1 in Overall Performance (Prize Money = 1,00,000/- INR)

Autonomous & GPS-Denied Navigation

Developing algorithms for precise waypoint navigation, obstacle avoidance and mission execution in complex environments.

Payload Integration

Seamless integration of various sensors and payloads for data collection, inspection, and specialized tasks.

Delivery Drone Concepts

Prototyping and testing multirotor systems capable of efficient and secure package delivery, addressing logistics challenges.

Object Detection & Avoidance

Advanced computer vision and LiDAR-based systems for real-time obstacle detection and autonomous collision avoidance.

Agnel Charities,

Fr. C. Rodrigues Institute of Technology, Vashi

OUTREACH & COMMUNITY EVENTS

Building the next generation of drone engineers

DRONE RACING — IDRL

Partner: Indian Drone Racing League

High-speed FPV drone racing competitions organized in collaboration with IDRL, bringing drone sport culture to university campuses.

UAV WORKSHOPS

Partner: In-house & Inter-college

Hands-on technical workshops covering CAD modeling, UAV design and drone assembly — open to students across departments.

- SolidWorks/Inventor sessions
- Fixed Wing fabrication & testing

Flight Simulator Events

Partner: FCRIT Campus

Indoor flight simulator sessions with RC to give students safe, hands-on experience in drone piloting before real-world flights.

- Fixed-wing & multirotor modes
- Aerobatics & precision flying

200+

Students Trained

8+

Events Organized

Agnel Charities,

Fr. C. Rodrigues Institute of Technology, Vashi

WHY PARTNER WITH AeroFCRIT?

More than a sponsorship — a strategic collaboration

Brand Visibility

- Logo on UAV airframes flown at national competitions
- Branding on team uniforms and banners
- Feature in social media posts, reels, and videos
- Recognition in competition design reports

Product Testing & Feedback

- Real-world testing of hardware in competition environment
- Detailed technical feedback from engineering students
- Data from flight logs and performance analysis
- Access to student-led innovation insights

Talent Pipeline

- Internship and hiring pipeline from team roster
- Early engagement with next-gen aerospace talent
- University collaboration and research tie-ups

CSR & Community Impact

- Associate brand with innovation and excellence
- Enable underfunded students to compete nationally
- Reach college communities across Navi Mumbai
- Featured in institutional press releases

Agnel Charities,

Fr. C. Rodrigues Institute of Technology, Vashi

SPONSORSHIP TIERS

1

ASSOCIATE PARTNER

₹8,000 – ₹15,000

- Logo on social media and team website
- Mentions in Instagram posts/stories
- Acknowledgment in technical presentations and reports

2

OUTREACH PARTNER

₹15,000 – ₹30,000

- Everything from Associate Partner, plus:
- On-campus seminar/workshop opportunity
- Pamphlet distribution and help desk during college events
- Logo on event banners
- 1–2 dedicated social media posts

3

TECHNICAL PARTNER

₹25,000 – ₹50,000

- Everything from Outreach Partner, plus:
- Logo placement on UAV platforms (drones and planes)
- Recognition as "Official UAV Components Partner"
- Integration of sponsor components in competition UAVs (ADDC/DDC)
- Product showcase posts/reels featuring UAV builds
- Promotion during AeroFCRIT technical events

FLEXIBLE COLLABORATION

We are open to partnerships in the form of component sponsorship, team discounts, or hybrid collaboration models. Contact us to explore custom partnership opportunities.

Agnel Charities,

Fr. C. Rodrigues Institute of Technology, Vashi

OUR SPONSORS

We extend our **deepest gratitude** to all our past and present sponsors for their **invaluable support**. Your contributions are instrumental in fueling innovation, enabling us to push the boundaries of UAV engineering, and empowering the next generation of aerospace leaders.
